School Vision – Our Common Aim

**Men and Women of Character and Learning
in the Service of God and Community**

The stories of St Louis Marie de Montfort:

- **Dinan:** Compassion for all
- **Rennes:** Standing up for the Last, the Lost & the Least
- **Poitiers:** Those whom the world rejects, must move you the most
- **Cesson:** Give your all in everything that you do

Realising Each Student's Full Potential

Performance = Potential - Interference

How well you do

Each person's ability to do well. This is not finite. The harder you work, the more you learn, the more your potential grows.

Examples:
Excessive device use
Gaming
Wrong Company
Unfocused Friends

What are your distractions?

How can you minimise these?

Every Parent, A Supportive Partner

- Keep in touch during your child's secondary school journey. Talk about his/her future plans, dreams, passions.
- Be supportive but not over-anxious.
- Encourage while ensuring discipline to grow and learn.
- Care for your child's well-being and setting healthy routines (Grow Well - eat, sleep, learn, exercise, play, use of devices).
- Encourage full participation in school
- Promote consistent and effective effort.

Parent and School Communication Policy

Communication between school and parent is an **essential component** of school life.

It is an **intentional effort** and a **shared responsibility** in order to provide **support** and to **improve** the ways students learn and develop.

The school is committed to help and support you with sincerity and professionalism, and there must be **mutual courtesy** and **respect**.

**ASSUMPTION
ENGLISH**

Parent and School Communication Policy

Teachers have numerous duties and matters to attend to during a normal school day.

The AES general office should be the **first point of contact**, particularly for non-educational queries.

Parents may direct queries to the form teacher/subject teachers through email (aes@moe.edu.sg). Do allow teachers to respond within 3 working days.

School will inform parents about current activities via **Parents' Gateway**. Hence it is important for parents to download the Parents' Gateway app and to read and take note of announcement published.

Other than the bi-yearly Parent Teacher conferences, parents should **make an appointment** if they wish to meet the teacher on a school day.

**ASSUMPTION

Parent and School Communication Policy

Teachers' well-being is as important as students' well-being.

Teachers are not expected to provide their personal mobile numbers to students or parents. If a teacher shares their numbers to students, it is

- meant **only for student to communicate with their teacher** on school matters.
- **should not be shared without the teachers' consent.**

Teachers and staff **will not respond to emails/ students' queries after 5pm or on weekends** unless the matter is an emergency in nature.

Communication should be gracious and respectful. The school owes a duty of care to its teachers and staff. To protect them from intimidatory or threatening behaviour in a verbal or written form. The school reserves the right not to engage under such circumstances.

To qualify for Junior College (JC)

Student must meet these two criteria:

1. **L1R5** gross aggregate score of **20 points or less**
2. Obtain an aggregate score (L1R5) that is within the net range of the respective JC stream (Arts/ Science)

L1R5	Subjects
L1	English or Higher Mother Tongue Language
R1	Any 1 best-scoring subject from Humanities
R2	Any 1 best-scoring subject from Mathematics or Science
R3	Any 1 best-scoring subject from Humanities , Mathematics or Science
R4, R5	Any 2 best-scoring subjects

Note: Religious Knowledge cannot be used as one of the best-scoring subjects for aggregate score computation.

Junior College - L1R5

Millenia Institute - L1R4

Use **SchoolFinder** at www.moe.gov.sg/schoolfinder to explore junior colleges and Millennia Institute.

L1R5 : For JC Course

Main Takeaway from the Case Studies

For students wishing to enroll into poly courses under Aggregate Types ELR2B2-B, ELR2B2-C or ELR2B2-D, their **E Math/ A Math grade must be used** in the calculation of their ELR2B2 score as Math falls under the 1st Group of Relevant Subject.

And since the grade obtained for English is calculated in all ELR2B2 score, English and Mathematics are important subjects that students must score well in to qualify for most Polytechnic courses.

Questions from MS Teams Q&A

Question 1:

Working hard is important, but not all students have the same starting point. How does the school support students with different needs and strengths?

Answer:

- In AES, we prioritise students' character development beyond academic achievements. Over the course of the 4 years with us, AssumptionKnights will undergo holistic school programmes and leadership opportunities to discover their strengths and become more confident in themselves.
- The school also provides a tiered support system where Form Teachers, Guidance Unit Officers and other Support staff come together to better support our AssumptionKnights. In this support structure, we highly value strong partnership from parents so that collectively we can achieve the best outcomes for our AssumptionKnights

Question 2:

How is the score calculated if the student has NA subjects and O level subjects?
How is the final score derived? How to use this when applying to a certain school in terms of cut off points?

Answer:

- For students who take a mix of subjects at the Express and NA levels, they will convert the grade(s) of their Express subject(s) to NA grade using the table in this website: pfp.polytechnic.edu.sg/PFP/pfp_eligibility.html
- The converted grade will then be used to calculate the ELMAB3 score for admission to PFP and/or DPP.
- For students who plan to apply to ITE's 3-year Higher Nitec programme, they will convert the grades of the subjects using the table on page 8 of this document: tinyurl.com/ITEentryrequirements
